

## DON'T GET STUCK WITH THE SMALL PROJECTS.

We know it's difficult to take on large jobs if you're footing the bill for big-ticket specialty glass up front. After all, it's your money on the line. At Glassopolis, we'll work with you to secure payment terms you can live with. You should choose the projects, not your wallet. Glassopolis also provides access to the widest selection of specialty glass products, so you can take on even more projects. We put commercial glass contractors first. Because our success depends on yours. Start growing your business. Call the experts at Glassopolis.
